Green Letters and 'Irab' must blend with next letter.

Hollow Letters and 'Irab' are non-active. Ignore them.

Black Letters and 'Irab' do not join with next letter.

1. In the beginning of Islam and the Holy Quran, Arabic text was written without *Nukaat, Tashkeel, Jazm, Shadda, and Waqoof*, signs. Top portion of attached diagram shows our **Bismillah**. Arabs could read (and can read) the Holy Quran written in such text. But the non-Arab Muslims, like me, could not read Arabic Holy Quran written in such style. **Later on**, above mentioned five innovative comforts, conveniences / relief were added to Arabic script, for me.

2. With the start of 20th century AD, '**Roman-Arabic** script' started getting popular and substituting 'Conventional-Arabic script.' This practice gained momentum and replaced 'Arabic Attires' with 'Roman Robes' in many areas. One credit of Roman script over Arabic script is that, "Roman letters have **two symbols** per letter while Arabic letters have **four symbols** per letter."

3. As a result, Arab scholars, institutions and governments started working on '**Simplified Arabic**.' They invented and introduced many 'Single-symbol

Arabic Fonts,' One credit of Simplified Arabic over Roman-Arabic script is that, "Roman letters have **two symbols** per letter, while Simplified Arabic letters have just **one symbol** per letter."

4. The top line **Bismillah** is written in 'Single Case Arabic Font.' '**SCAF**' is a single-symbol Arabic font, custom matched for non-Arabs, for greater comfort, efficiency, pleasure and presentation when reading Holy Quran. **SCAF** has been used in Easy Recite Arabic System as **first characteristic** of **ERA Text**.

5. **If you** do not fairly know Arabic language, or are unhappy with too many 'Rules of Recitation,' or **if your** juniors prefer to read Holy Arabic on Roman script, then **Easy Recite Arabic System** of reproduction of **Holy Quran** in CDs, Books and on Internet, deserve you august attention.

6. **ERA Text** is an extra-ordinary, revolutionary and number 1 Arabic text. It is: "Greatly Innovated and Re-organized **with YOU in mind**." You will like it, adopt it and advocate it, for your love for the **Holy Quran** and the **ERA merits**.

7. The **second characteristic** of **ERA's triumph** is stated as under: "**Instead of** printing the **Holy Quran** in a single (black) color, **ERA** letters are printed in different colors, governed by traffic-like-rules, explained in the middle portion of the above attached diagram."

8. All readers can easily obey above stated traffic-like-rules on **ERA READway**. Please scan **Bismillah**...in color. Verify its traffic rules, find the link between red **Jazm / Shadda** and **green letters**, feel the freedom from hollow letters and admire simplest role of black letters.

9. On **ERA Text**, you find at first sight the '**exact phonetic mode**' of each and every letter in whole Holy Quran. So, you are about trained to read entire **Holy Quran**, re-painted under **ERA Colors**. Please discover other utilities and great potential of 'Emergency Read Arabic Text,' at **ERA** web site, which continues to be under construction, at: **www. EasyReciteArabic.org**

10. **ERA Text** is taught, tutored, learnt, read and recited, extra easily as a jolly, colorful, **visual game**. Cruising on **ERA READway** is **free from Arabic** grammar, vocabulary, tiresome searches for **Jazm** and **Shadda**, agitating **Waqoof** signs, the non-rational rules of recitation, hunting of **silent letters** just to ignore them and other obstacles. Enjoy 'Cruising on **ERA READway**'

11. I am the humble author of **Single Case Arabic Font** and **Easy Recite Arabic System**. I have composed entire **Holy Quran** on **ERA System**.
